## Rubber Processing

Value-engineered power transmission solutions  
for the rubber processing industry

# The complete rubber and plastic industry product range

David Brown Santasalo has built long standing relationships with both OEMs and global end users in rubber and plastics industries. With increasing demands for efficiency and productivity in an increasingly competitive global market place, here at David Brown Santasalo we understand the critical nature of gearboxes to your process with no room for compromise on performance or reliability. In a world economy reliant on rubber and plastics products, failure is not an option.

## Mixer drives

**Application 1**  
Powers up to 4000+ HP for both Tangential and Intermeshing rotors  
Package can include baseplates, couplings and integral lubrication systems

## Mill drives

**Application 2**  
Fixed friction ratios or independently driven drives  
Package can include couplings and lubrication systems

## Extruder drives

**Application 3**  
Integral thrust bearing  
Robust housing  
Integral lubrication systems  
Hollow output shaft options

## Calendar drives

**Application 4**  
Single or multiple motor inputs  
Multiple outputs  
Wide variety of configurations available

## Service and repair

We offer a 3 year extended warranty package on gearboxes serviced, repaired and upgraded by David Brown Santasalo  
Using latest video endoscope technology, our service engineers carry out full gearbox inspections to identify issues before they cause failure  
We can repair, upgrade and maintain any type of gearbox for any industrial application  
GearWatch, our proactive and customisable remote monitoring services for industrial gears
